~~SECRET~~

o The TOR in its "almost final" form was reviewed. Only two changes were suggested by WG members. The "still in work" status of Annex D was described to the WG and they were told that they would be in receipt of the revised annex as soon as it was on paper.

o There was good participation by the WG members during the discussion session. The various members were informed by the chapter drafters of the contacts they were making within the members' agencies.

-- Several of the members were concerned about the future of the effort in light of the undefined future of FSCS. The general opinion seemed to prevail that whatever happened to FSCS the FSE Update would be a necessary action.

-- It was also recommended that it would be of benefit to the analysts doing the writing of the first drafts if we could give them a bit more time. In light of the scheduled meeting on 7 Oct the WG recognized that any change in schedule would have to await the meeting's results. [redacted]

25X1

4. Between this and the next meeting, scheduled for 25 Sept, we plan to work on a number of items that relate to the overall effort.

o Determine whether we can arrange for a presentation to the WG at the next mtg on the applicable parts of NIE 11/12.

25X1

o Identify candidate educational presentations to be given during wkg grp meetings or meetings held by the chapter drafters.

o Acquire more administrative and background information to support the decisions on location and attendance of the mini conferences. [redacted]

25X1

5. The next meeting is scheduled for 1300 on 25 Sept. We intend to distribute the "final" version of the TOR and have at least one presentation (the tailored briefing on NIE 11/12) for the WG. [redacted]
